TECHNICAL SKILLS

Frontend

- React.js
- Next.js
- HTML5
- CSS3
- Tailwind CSS
- UI/UX

Backend & Database

- Node.js
- Express.js
- MongoDB
- REST APIs

Languages

- JavaScript
- C
- C++

Tools & Deploy

- Git
- GitHub
- Vercel
- Netlify
- Chrome DevTools

EDUCATION

B.Tech — Computer Science & Engineering

Coding Gita (Offline Institute)
2nd Semester · 2025–Present

CERTIFICATIONS

- ★ Meta — Intro to Front-End Dev
Coursera · Grade: 99%

Priyank Khatri

FULL-STACK DEVELOPER · Ahmedabad, India

B.Tech CSE student with hands-on experience building and deploying full-stack web applications. Proficient in React, Node.js, and MongoDB with a track record of shipping 3+ live SaaS-style projects within the first year of study. Eager to contribute to a team tackling real engineering problems.

TECHNICAL PROJECTS

AI-Adaptive Onboarding Engine

React.js · Node.js · Express · MongoDB

- Live Demo
- Source Code

- Built a SaaS platform that parses resumes against job descriptions to identify skill gaps and auto-generate learning roadmaps with Radar and Bar chart visualizations.
- Implemented state isolation, JWT-secured API routes, and one-click PDF export — reducing onboarding friction for end users.

Movie Explorer — Cinematic Database Browser

React.js · Tailwind CSS · OMDb API

- Live Demo
- Source Code

- Integrated OMDb API with optimized global state management, achieving near-instant search result rendering across all query types.
- Designed modular component architecture with advanced Tailwind CSS transitions for a responsive, production-quality UI.

API Image Gallery — Dynamic Visual Explorer

HTML5 · CSS3 · Vanilla JS · Pexels API

- Live Demo
- Source Code

- Developed a mobile-first gallery with real-time Pexels API search, implementing lazy loading and DOM optimization for immediate rendering on all devices.
- Hand-coded a fully responsive CSS Grid layout with zero external CSS frameworks.

ACHIEVEMENTS

- Rapid Delivery:** Conceptualized and deployed 4+ full-cycle frontend and backend architectures within first two semesters of engineering studies.
- Active Contributor:** Maintains public GitHub repositories and YouTube channel documenting full project development lifecycles for community learning.
- Algorithmic Problem Solving:** Actively solved competitive programming problems on LeetCode, strengthening DSA fundamentals in C++ and JavaScript.
